HAR FORSAKEN HIM.

And Married a Corporal in the Regular Army.

Many persons will remember the short stay of the Charleston here on her way to China some eight or nine months ago and the notoriety obtained by one of her machinists who was said to have taken a young German lady out to the Pali one day and married her the next, just before the vessel sailed. The fact of the marriage has been denied by the young lady in question, but it is certain that a loving correspondence has been kept up between the two, and the would-be bridegroom has done what he said he would, which was to send the girl half his wages towards furnishing their future residence. The money is said to have been used for that purpose too, but the bride became tired of waiting for her sailor lover or husband, whichever he may be, to return and a few days ago married a corporal in the regulars, who is of Swedish descent. The sailor will get his letters back in due time, together with the increase of wisdom which is gained by experience of the sex which is sometimes both fickle and fair.

So perfect will be the plant of the new company that half-tone cuts for magazines and periodicals will be turned out at twenty-minutes' notice. The present chalk process used in newspaper articles will be superseded by the zinc process now used on the Call and Examiner.

OPIUM ON BOARD.

One Hundred and Fifty Tins Found on the Wilder.

Customs Officers Thurston and Kanuku found 150 tins of opium stowed away in the watertight compartment of a metallic life-boat which rested over the donkey-room of the bark S. G. Wilder. A hole had been neatly cut through which the packages of opium had been thrust. The ownership of the opium is unknown, but suspicion has fallen on the carpenter of the vessel, who was discharged by Captain McNeill this morning. No arrests were made in connection with the affair, and the opium has been taken to the station house.

There was a meeting of the stockholders of the Wilcox Wrecking Company at 2 o'clock this afternoon. The principal business done was in consulting each other over their losses.

Nothing Strange.

Intelligent people, who realize the important part the blood holds in keeping the body in a normal condition, find nothing strange in the number of diseases Hood's Sarsaparilla is able to cure. SPEAKING OF
SEWING MACHINES
REMINDS US

To remind you that we have a Sewing Machine in which we place so much confidence that we will send it to you on trial free for a week and if not satisfactory you may return it at our expense.

We make this offer because we know our goods. Our Machine costs a trifle more wholesale and sells for a trifle more retail than any other Machine in the world, but it is worth it. Listen: It makes five stitches to the revolution while others make but three and one half. In other words you do what is three days' work on the old style in two days with the "Standard". If you are tired or busy that is worth while. Paste this in your bonnet.

The "Standard" has both chain and lock stitch. The "Standard" gives a written guarantee for five years. It does every thing that can be done on a Sewing Machine, what more do you want? Sold on the installment plan at Eastern prices. \$10 discount for cash. For rent by week or month.
